

# THE MAIN POINTS OF LA BERNIERAISE

## CELEBRATE THE FREEDOM FOUND AGAIN IN 1944

On June 6th 1944, our liberators came by the sea. So, it's on the sea we are going to celebrate this freedom and peace found again. The goal is to gather on the water and then to land on the beach where the Canadians arrived.

## A ECO-FRIENDLY NAVIGATION

Any rowing and sailing boats will all join together : rafts, doris, old rigs, electric boats, kayaks, paddles, sailboard, boats. . .

## A NAVIGATION ALL TOGETHER

We participate in a fleet team, at least 2 boats. Every fleet should take care of its own safety and choose its own way. On Saturday 8th June, all the fleets gather to create a Big Navigation.

## A FREE AND RESPONSIBLE NAVIGATION

The sea is a wonderful place of freedom. Each participant sails under his own responsibility and undertakes to assist the other. It is asked to know the security rules and to register your participation on the website [labernieraise.fr](http://labernieraise.fr)

## A WONDERFUL SHOW

All the boats sail along the coast and land all together. Spectators also participate in the party on the beach. All the boats sail along the coast and land all together. Spectators also participate in the party on the beach.

## A CONVIVIAL AND FESTIVE MOMENT

No ranking, only the pleasure to share a festive moment. Thanks to our partners and volunteers' work, all is free on water and on the beach.
